

CoPatient™

Enabling you to differentiate your services in a crowded market

Stand out from the competition with a time & money savings solution for your clients

CoPatient is an easy-to-use service that helps identify medical billing errors and negotiates with providers and hospitals on the consumer's behalf. We only charge when we are successful at saving the customer money. Our service is free to you.

Q Has healthcare reform made your job more difficult and less profitable?

A We get it. Employers are switching to high deductible plans and your clients are looking to you for solutions on complex medical bills- costing you time, money and profit. CoPatient is your solution.

"When clients get large insurance claims, they look to us for help and expertise. This is where CoPatient helps us differentiate our service. They take 10-15 hours a year off each client. When they save money, I look like the hero for having this service."

-Jeff S., Broker

CoPatient experts provide a hands-on, technology driven service to resolve medical bills at no cost to you or your client!

Save Time & Hassle

Our technology and billing experts manage all the paperwork and negotiation.

Differentiation

No upfront costs. We charge a small fee to the customer only when we save them money.

Results

In 80% of the medical bills reviewed, we find errors that insurers and providers miss.

Success

Save customers money while growing your business.
