

# Employer Solution

Reduce health expense related stress while saving time and money.

## The Industry Problem:

As health care costs continue to rise, employers are redesigning their benefits strategy to engage employees in healthcare expense management. That said, trends in network design, higher out of pocket expenses, and limited medical bill literacy require new services that support HR and reduce stress for employees.

**42%** Of employees say medical bills & expenses are their biggest financial concern

**25%** Of consumers household income may be spent on medical bills & expenses

**59%** Of consumers are unaware they sought treatment from an Out-of-Network Provider

## The CoPatient Solution simplifies medical expense management with with a unique blend of technology, tools, and services

### Network of Knowledgeable Advocates

Our Advocates have more than 30 years of healthcare expertise on average, with experience in billing, coding, claims adjudication, and clinical settings

### Industry Leading Technology

Our proprietary software identifies common medical billing issues and looks for savings opportunities, allowing us to deliver our service accurately and efficiently.

### Employee Engagement

CoPatient meets your employees where they are, with tools and education accessed 24/7 via mobile, web site, and phone. Customized marketing campaigns are developed to educate employees about our service.

## How we work with employers

Medical Bill Negotiation	Out of network claim negotiations
Negotiate any post-adjudication medical bill submitted by employee	Negotiate plan sponsor and employee liability prior to claim adjudication
Both products feature flexible PEPM and Contingency Fee based on your companies needs.
