

PHARMACY SERVICES

Pre-Authorization (PA) Medication List

Pre-Authorization (PA) supports coverage of safe, effective, and high value medications, helping you and your doctor choose quality medications that provide the most value. Medications on this list require approval prior to your health plan covering the medication.

Below is a list of medications that require PA and alternative treatment options, when applicable. Quantity limits may also apply. This list is intended only as a guide to coverage. We encourage you to talk to your doctor about all of your treatment options. For the most up-to-date medication coverage requirements or to request forms, visit our web site or call Customer Service.

Questions?

Call the Customer Service number on your member ID card.

PA Medication	Generic Name * medication is available generically ^ also requires PA	Alternatives ^ also requires PA
